Industry Trends: Countermeasures

1. In response to industry competition, flexibly adjust production line configurations and effectively reduce raw material and finished goods inventories.
2. Continue developing high-end brands to enhance gross margins and expand into the Japanese apparel market.
3. Invest in the construction of energy storage facilities:
 - ① Nylon Plant: 26 MWh, total investment of NTD 275 million
 - ② Yangmei Plant: 10 MWh, total investment of NTD 105.7 million

The projects are scheduled to be completed and commence operation by the end of February 2026.
